

The Biology of Business™:

Chakra 4 = Heart, Passion

Royalty – “Do not mess with my realm, because I am the Queen/King.” “I want what I want and I want it NOW.” ‘All about me’ with no apology (self-focused like the “Hermit”). Somebody has to know what they want and get it for them. Can be demanding and self-centered. Consideration of others goes a long way.

The Biology of Business™:

Chakra 4 = Heart, Passion

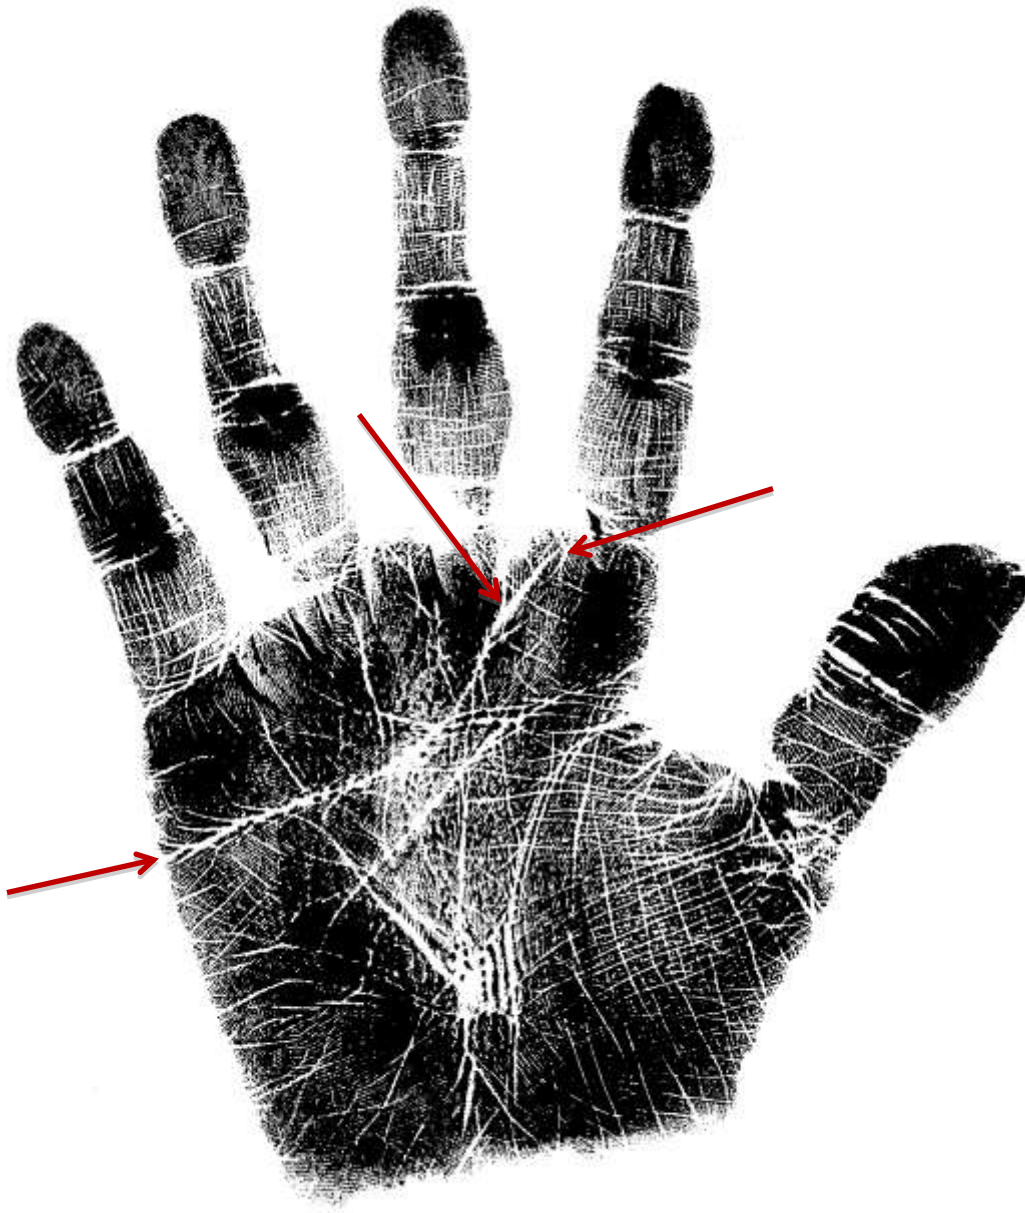

“Big Heart” Heart Line ~ Water Element | Chakra 4 (Heart): ‘All about YOU’ (other-focused); nurturing and caretaking. Most important thing is that the people in their life are being nurtured and taken care of. The Big Heart very graciously wants to do that; can burn out from over-giving. Being alone/working alone is hard.

The Biology of Business™:

Chakra 4 = Heart, Passion

“Passionate Acting Like a Big Heart” Heart Line ~ Fire & Water Elements | Chakras 2 & 3 (Sex and Solar Plexus) + Chakra 4 (Heart): Passionate heart line detours to Big Heart termination point. “It’s not okay to have my passions.” Has fears that “I’m not going to be loved if I’m that selfish, self-oriented.” Line detour happens early in childhood; carries Passionate and Big Heart energies. Big Heart energy is predominate but owner thinks, “Wouldn’t it be nice if someone noticed all I’m giving and took care of me?”

The Biology of Business™: Chakra 4 = Heart, Passion

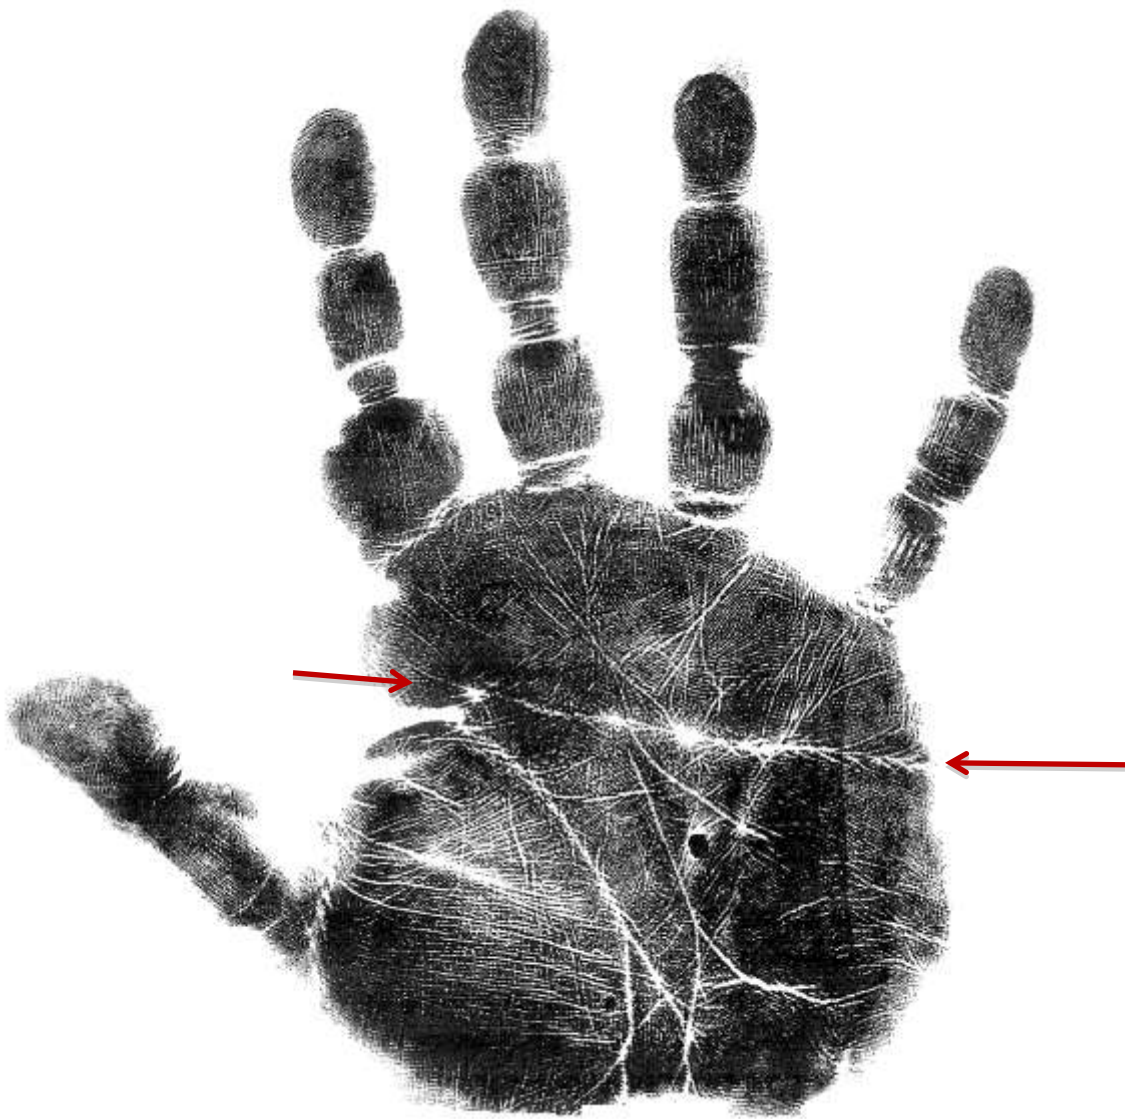

“Romantic Idealist” Heart Line ~ Air Element | Chakra 5 (Throat): Number one requirement is being considerate - “It’s so rude when _____.” Takes things into consideration; weighing things; thinking about feelings; looking into the future - “What about this?”

The Biology of Business™:

Chakra 4 = Heart, Passion

“Simian” Heart Line ~ Melding of Heart and Head Lines into One Line (Chakra 6 type mental energy): Feeling and thinking energies are unified. Difficult to separate how they feel and think. Ask a thinking question – get a feeling answer; ask a feeling question – get a thinking answer. Very intense – two systems merged into one. Calm on the outside – profound intensity on the inside. Burn the midnight oil when excited about something – don’t try to make them go to bed. Often feel misunderstood due to inability to separate thoughts and feelings.

The Biology of Business™:

Chakra 4 = Heart, Passion

Multiple Heart Lines ~ Emotional Explorer (Multiple Elements/Chakras in Play):

First heart line type ends at the split point. Example below has the Hermit, then splits into Big Heart and Romantic Idealist. In this instance, person gives and receives love in three distinct ways. **Story:** The three heart lines go to a party. The one who accepts the invitation is the Big Heart. Romantic Idealist goes somewhere to have a deep conversation with one person. Within an hour, the Hermit is saying, "I've had enough, let's go!" Hermit has to get the attention of the Big Heart and get the Big Heart to move out of the party. Big Heart has to say 'goodbye' to everyone she knows. Living with multiple emotional selves is a lot of emotional expression. Educate people in your life about your complexity.
